SUBJECT INDEX TO VOLUME 114

Angiotensin
  method of determination in blood (Morris & Robinson), 127
Antibiotic
  treatment of acute maxillary sinusitis (Reynolds et al.), 279
Antibody production
  alkylating agents (Santos & Owens), 384
  antimetabolites (Santos & Owens), 384
  chemical suppression of, in rats (Santos & Owens), 384
Astrocytes
  fine structure (Bodian), 13

Book Reviews, 120, 173, 230, 279, 354, 415

Carotid pain syndrome (Ford), 256
Cells
  effects of thyroxine on rat liver (Douglas), 253
  inflammatory, in spinal cord (Bodian), 1
Chemical suppression of antibody production
  in rats (Santos & Owens), 384
  with alkylating agents (Santos & Owens), 384
  with antimetabolites (Santos & Owens), 384
Cholesterol
  total serum, statistical consideration of distributions (Thomas et al.), 290
Congenital heart disease (Roberts et al.), 157
Coronary disease and hypertension
  total serum cholesterol (Thomas et al.), 290
Corticosteroid therapy
  in pregnancy (Oppenheimer), 146
CRST, syndrome (Winterbauer), 361
Chromosomes
  a familial syndrome of multiple congenital defects (Bowen et al.), 402
  heteropcynotic segments (Şayli), 152
  heteropcynotic segments (Şayli), 152
Chromatolysis
  in poliovirus infections (Bodian), 13
  retrograde (Bodian), 13
Cytomegalic inclusion disease
  observations concerning human cytomegalovirus infection and disease (Medearis), 181
Cytomegalovirus, human
  infection and disease (Medearis), 181

Disease
  congenital heart (Roberts et al.), 157
  coronary (Thomas et al.) 290
  cytomegalic inclusion (Medearis) 181
  Hodgkin's (Evans & Nyhan), 237
  Raynaud's (Winterbauer), 361
  rheumatic heart (Roberts et al.), 157

Editorial, 289
Electron microscopy
  of spinal cord (Bodian), 13
Epidemiology
  of staphylococcal infection (Minchew et al.) 313

Gastric acidity
  freezing technique (Fores et al.), 249
Gastric freezing
  acidity following (Fores et al.), 249
Genetics
  multiple congenital defects (Bowen et al.), 402
Glycogen
  in poliovirus infections (Bodian), 13
Golgi apparatus
  in chromatolysis (Bodian), 13
Granulocytes
  in virulent poliovirus infections (Bodian), 13
Great vessels
  transposition of (Roberts et al.), 157

Headache
  carotid pain syndrome (Ford), 256
Hemoglobin J (Baltimore)
  coexisting in family with hemoglobin S (Weatherall), 1
Hemoglobin S
  coexisting in family with hemoglobin J (Baltimore) (Weatherall), 1
Hepatitis
  cytomegalic inclusion disease (Medearis), 181
Hodgkin's disease in children (Evans & Nyhan), 237
Humoral immunity
  alkylating agents (Santos & Owens), 384
  antimetabolites (Santos & Owens), 384

chemical suppression of, in rats (Santos & Owens), 384
Hypertension
coronary disease (Thomas et al.), 290
renovascular, relationship to angiotensin II (Morris & Robinson), 127
relationship to angiotensin II (Morris & Robinson), 127
total serum cholesterol (Thomas et al.), 290
Hypertension and coronary disease
total serum cholesterol (Thomas et al.), 290

Immune response
alkylating agents (Santos & Owens), 384
antimetabolites (Santos & Owens), 384
chemical suppression of, in rats (Santos & Owens), 384
Infection
cytomegalovirus, human (Medearis), 181
in hospital personnel (Minchew et al.), 313
macrophages in poliovirus (Bodian), 13
of monkey spinal cord (Bodian), 13
poliovirus (Bodian), 13
sinusitis, acute maxillary (Reynolds et al.), 279
staphylococcal, studies of epidemiology of (Minchew et al.), 313

Lesions
in newborn (Oppenheimer), 146
Liver
effects of thyroxine on rat liver cells (Douglas), 253
hepatitis due to cytomegalic inclusion disease (Medearis), 181

Macaca
irus, spinal cord in (Bodian), 13
mulatta, spinal cord in (Bodian), 13
Macrophages
in poliovirus infection (Bodian), 13
Mental retardation
cytomegalic inclusion disease (Medearis), 181
Microglia
fine structure (Bodian), 13
Migraine
carotid pain syndrome (Ford), 256
Mitral regurgitation
in corrected transposition of great vessels (Roberts et al.), 157
Muscle
the structure of the dorsal fin musculature of the marine teleosts, *hippocampus hudsonius* and *h. zosterae* (Bergman), 325
mechanical properties of the dorsal fin musculature of the marine teleost, *hippocampus hudsonius* (Bergman), 344

Neuronophagia
in poliovirus infections (Bodian), 13
Nissl bodies
in poliovirus infections (Bodian), 13
relation to synapses (Bodian), 13

Oligodendrocytes
fine structure (Bodian), 13

Pain
carotid syndrome (Ford), 256
Pancreas
necrosis of (Morris, R. E., Jr.), 212
pancreatitis, experimental (Morris, R. E. Jr.), 212
Pneumonia
cytomegalic inclusion disease (Medearis), 181
Poliomyelitis
pathologic changes in (Bodian), 13
Poliovirus
infection of monkey spinal cord (Bodian), 13
macrophages in poliovirus infection (Bodian), 13
particles in motoneurone (Bodian), 13
poliovirus-like particles in granulocytes (Bodian), 13

Raynaud's phenomenon
as part of CRST syndrome (Winterbauer), 361
Renovascular hypertension
relationship to angiotensin II (Morris & Robinson), 127
Rheumatic heart disease
simulation of by congenital heart disease (Roberts et al.), 157
Ribosomes
increase in poliovirus infection (Bodian), 13

Sinusitis
bacteriology and antibiotic treatment of acute maxillary (Reynolds et al.), 279

Spinal cord
electron microscopy (Bodian), 13

Telangiectasis
multiple, non-hereditary (Winterbauer), 361
Thyroxine
effects on rat liver cells (Douglas), 253

Toxicity
of immuno-suppressive chemicals in the rat (Santos & Owens), 384
Transposition
congenital corrected of great vessels (Roberts et al.), 157
